

**RECOVER REPLENISH RESTORE...**

## **ABC SOIL FOOD**

ABC soil food liquid contains a balanced combination of diverse naturally occurring soil microbes and their metabolites supplemented with mineral elements. It helps in quickening composting, accelerates soil recovery from forest fire, restores soil salinity. Its cellulose and lignin digesters accelerates stubble digestion in farm fields.

**Easy application : Use as foliar spray or during irrigation**

- New technology for soil revival
- Effective even during unfavorable conditions such as cold, drought and high temperature
- Accelerates decomposition of crop residues and organic debris in farm fields
- Stimulates and supports soil reclamation in poor soils due to fire, salinity etc
