

ABC KITCHEN GARDEN

Nourishing and protecting plants naturally...

Dear ABC user,

Thank you for choosing ABC for your plants. Fadeevagro's ABC formulations have customized concentrations of organic nutrients for healthy growth, development and protection of plants. We understand how much effort you put in for your kitchen garden. This is a complete kit to help you grow your own organic, nutritious and healthy food- easily, safely and sustainably.

ABC SEED STARTER

ABC Seed Starter provides seeds with additional nutrients for sprouts growth and protects young roots and stems from pests and pathogens. It increases germination up to 99% and significantly enhances plant vigour.

ABC VEGETABLES

ABC Vegetables is formulated to provide vegetable plants with specific nutrients such as Mg, Ca, B, Zn along with N, P, K in balanced concentrations for their flowering and fruiting. Minerals from ABC provide all necessary nutrition for strong development of the plants from seeds, healthy green growth, formation of maximum amounts of flowers, fruits growth and ripening. Organic forms of the minerals and additional amino acids, vitamins, humic acids from ABC makes it easy to grow organic vegetables with high nutritional value at home.

ABC SOIL RECOVERY

ABC Soil Recovery contains highly concentrated extract of nutrients from black soil, minerals, soil probiotics extract. Regular applications of ABC Soil Recovery not only enrich soil with nutrients necessary for plants, but also converts clay type of soil into black soil. It allows the reuse of soil for planting, improves its quality, helps to grow any plant organically and creates a locally important agriculture resource – fertile soil.

ABC GARDEN

Bud formation and blooming requires specific nutrients. Along with high K levels, flowering plants need B, Zn, Si and other minerals for vibrant and rich flowering. ABC Garden is a formulation specifically designed to fulfill the nutrition requirements for flowering as well as ornamental plants. In addition to the minerals for flowering, it contains balanced composition of all the elements needed to enhance green leaves growth.

ABC PROTECTION

ABC Protection contains organic water-soluble minerals which suppress fungal infections and are also highly efficient against pests, but are absolutely safe for people, pets and pollinators. These components are normally present in human nutrition as well as taken up by plant as natural nutrients. Best choice for pests control especially for edible plants.
